

# FORTUNITY INSIGHTS™

Believe your business is capable of more?

## CUSTOMER SURVEYS & STAFF SURVEYS

## GET YOUR CUSTOMERS & STAFF RIGHT BEHIND YOUR BUSINESS GROWTH!

Tap directly into your best possible source of information; your customers and your staff. Surveying your staff and/or your customers can provide valuable feedback to help you improve your business.

Fortunity offers a simple, cost effective tool that can be used to gain honest, valuable feedback from the people that know your business best, your customers and your staff.

### CUSTOMER SURVEYS

By surveying your customers you are able to understand what it's like to deal with your business. As a business owner it's difficult to be objective about the customer experience. We can offer a solution that enables you to make clear decisions on improving your business to better satisfy your customers needs.

### STAFF SURVEYS

An independent survey aimed at improving staff engagement and morale within your company. Ensuring a positive work environment for your staff is key to retaining and attracting the best people possible.

### WHAT ELSE DO YOU NEED TO KNOW?

These two surveys can be conducted together or independently. Pricing for a bundle package is available. If you are interested in hearing more about the benefits of these surveys and how quickly and cost effectively they can be conducted, call us on 02 4304 8888 or email [insights@fortunity.com.au](mailto:insights@fortunity.com.au).
